

Participating Public Libraries and Library Services

A number of libraries throughout the state are participating in Looking @2.0. Check the list below to see if your local library is one of these.

A number of libraries are conducting drop in and support sessions to guide participants through the program. Some libraries are running learning programs that link to the modules and web 2.0 technologies and others are promoting the program only. To

find out what your participating library is doing view their website, drop in and ask the friendly library staff or give your library a call. Alternatively you can enquire by emailing looking2.0@slq.qld.gov.au.
