						<p><i>[Newspapers enclosed in letter from H Stuart Russell p 289 – attention drawn to certain articles relating to ship “John Fielden”, Ship Channel, Buoys & Lighthouse & Signal Station at Moreton Bay & ship “Fortitude”]</i></p> <p>[MORETON BAY COURIER JUNE 18, 1853] [page 2, column 1] <u>SHIPPING INTELLIGENCE</u> ARRIVAL June 11. “<i>John Fielden</i>”, ship, 916 tons, Clarke, from Liverpool, March 11th. Passengers Dr M E B Nicholson, Surgeon-Superintendent, and 396 Government immigrants DEPARTURE June 16. “<i>Florentia</i>”, barque, 453 tons. Banks, for Sydney, in ballast. “<i>John Fielden</i>” made excellent run 90 days from Liverpool to Moreton Bay, left former place 11th March - mentions Cape of Good Hope in 59 days, off Sydney on 84th day, took Pilot on board inside Moreton Bay “on Saturday last”; encountered “<i>Marco Polo</i>” from Liverpool, “<i>Ariel</i>” from London for Algoa Bay; on voyage supernumerary seaman of “<i>John Fielden</i>” jumped overboard & drowned Coming into Moreton Bay Captain Clarke taken aback upon finding <u>no</u> buoys to mark Ship Channel as shown on chart; appears buoys recently laid down all carried away again – had no alternative but to wait in area of spot where he thought channel to be until Pilot came on board, when it was too hazy to proceed - was obliged to cast anchor in open sea channel. Consequence was cable parted, had to get down another anchor losing 30 fathoms of chain cable & best bower anchor, & breaking his windlass in hoisting the second anchor next morning. Ship then brought to usual anchorage ground, off the Brisbane. Immigrants all well, original number embarked, including infants, was 393, there were 4 deaths (children) & 7 births on the passage. <i>[Further particulars of passengers to be found in 5th col. this page]</i></p> <p>[page 2, columns 2-3] <u>THE MORETON BAY COURIER</u> <u>SATURDAY, JUNE 18, 1853</u> THE NORTHERN SHIP CHANNEL Inconvenience & loss sustained on recent arrival of “<i>John Fielden</i>” in port of Moreton Bay, similar circumstances recalled by correspondent in this issue, again plead strongly in favour of some efficient plan for permanently marking out Northern Channel. Various other circumstances have occurred to cause long detention to several vessels arriving here – mentions seamen absconding from vessels and tedious & secret investigations – increased repugnance of owners to send ships to this port – commanders of vessels continue to find discrepancy between marks laid down in charts & nautical books & actual appearance of the entrance on their arrival – may expect consequences most injurious, “nay absolutely ruinous”, to these Districts. Owners will seek much larger rate for carriage of passengers to a port where property exposed to such risks, or refuse a charter for Moreton Bay – not yet recorded any loss of life or shipwreck arising out of circumstances alluded to, but have created state of affairs which must be addressed with view to suggestion of a remedy.</p>		[281] – [282] pages not numbered

						<p>Not within our province to offer criticism upon manner in which buoys have been laid down - performed under direction of officers of large experience, cause to believe every precaution taken in the service.</p> <p>Frequent disappearance of Buoys may be accounted for by nature of holding ground at entrance of Ship Channel & that anchors & chains have sunk in quicksand – appears probable from fact mentioned by Captain Clarke of “<i>John Fielden</i>”, that his windlass was broken in heaving up second anchor – loss of anchors in quicksand is frequent occurrence - occurred at mouth of Victoria River during voyage of the “<i>Beagle</i>”.</p> <p>Only proper remedy is to establish floating light in convenient spot in Moreton Bay – Colonial Secretary has assured Legislative Council proper measures now in progress for erection of Light-house on eastern promontory of Cape Moreton - urgently required it will provide for safety of ships making this port and with the ... of a Signal Station there, will remove all fear of danger</p> <p>Re marking of Channel inside: best plan & most economical will be to moor suitable hulk in appropriate spot with a light, cheaply maintained, burning at night – on board this light ship a Pilot, well provided with strong crew & 2 life boats should be stationed in readiness to give assistance to ships entering Bay – has cost public revenue considerable sum for laying down Buoys which have been useless, & permanent method of indicating course to be taken by strange vessels is necessary for protection of life & property - plan mentioned appears the best, advocated by several persons of considerable nautical skill & experience – comparatively small number of strange ships coming to this Port a poor argument to use against proposal – that very circumstance is strong reason in its favour for it is chief cause of entrance to Bay being so little known – when trade of port increases & vessels arrive in large numbers, may be too late to take those precautions which a wise & humane Government should adopt beforehand</p> <p>[page 2, column 4] <u>ORIGINAL CORRESPONDENCE</u> <u>AUDI ALTERAM PARTEM</u></p> <ul style="list-style-type: none"> • <p>SIGNAL STATION AT MORETON BAY <i>To the Editor of the Moreton Bay Courier</i></p> <p>Mentions articles on importance of erecting Light-house & Flag Station on Cape Moreton, has deep interest on subject from following circumstances connected with “<i>Fortitude</i>” “in which you seem unacquainted”: Vessel had tedious passage to Moreton Bay, mentions Bass Strait, Sydney Heads, wind & current, stores running out – made Cape Byron, uncertain of whereabouts, Captain put out to sea for night, following morning were abreast of what was taken to be Point Look-out [see also Point Lookout], ship in readiness to round it, but not observing Pilot Station or Amity Point, with ugly rock in vicinity, stood out to sea once more – conjectures found to be correct (observations taken) – still no sign of Pilot, Captain determined to run for northern entrance with Captain Wickham's Directions in <u>Nautical Magazine</u> , could safely bring ship to anchor at Cowan Cowan – rounded Cape Moreton, found first & second buoys, no sign of third – greatly discomfited Captain as unacquainted with land marks alluded to in Captain Wickham's Directions – had recourse to the lead, hazardous way worked vessel up the channel past Cumbyuro Point [see also Comboyuro Point] –</p>

						<p>at sunset, met Pilot (Harbour Master) – danger & extreme anxiety might have been avoided had there been Flag Station on the Cape, 200 souls might have perished – sea risks are great enough without supineness, indifference & inhumanity of those whose duty is to provide for internal wants of State, but also to obviate contingencies arising from navigation of the coast I am, Sir – Yours etc... LATE SURGEON-SUPERINTENDENT of the <i>Fortitude</i></p> <p>THE MORETON BAY FREE PRESS <u>BRISBANE, TUESDAY JUNE 21, 1853</u> [columns 2 & 3] SHIPPING INTELLIGENCE ARRIVAL June 11 – “<i>John Fielden</i>”, ship, 914 tons, Clarke, from Liverpool, March 11th. Passengers – Dr M E B Nicholson, Surgeon Superintendent and 405 Government immigrants.</p> <p>• The “<i>John Fielden</i>” has made best run ever performed between England & Moreton Bay having left Liverpool on 11th March & arrived Moreton Island 11th inst, thus making passage in 92 days – details of voyage follow, mentions “<i>Marco Polo</i>” from Liverpool, “<i>Ariel</i>” from London to Algoa Bay, supernumerary seaman named James Frazer jumped overboard & was drowned, 405 emigrants, 5 deaths (children) & 7 births – healthy state On arriving off Moreton Island, Captain Clarke could perceive none of the buoys as shown in chart to mark channel, went too far to westward running vessel into imminent danger. Waited for Pilot to arrive, too hazy to proceed, came to anchor in open channel, cable parting, lost bower~ anchor & 30 fathoms of chain, let down 2nd anchor, in hoisting next morning windlass broke. Eventually reached anchorage, much annoyed at apparent neglect of the Port - “<i>Marco Polo</i>” arrived Melbourne on 29th ult.</p> <p>[column 5] THE MORETON BAY FREE PRESS <u>BRISBANE, TUESDAY JUNE 21, 1853</u> BUOYS AND LIGHTHOUSES Last week commented on loss of “<i>Monumental City</i>” off Cape Howe, reprehensible conduct of government in neglecting for so long the construction of lighthouse there, at same time suggesting erection of temporary one at our own Port before terrible disaster – mentions the “<i>John Fielden</i>” with 400-500 souls aboard almost became total wreck off Cape Moreton – on such cases easy to censure unfortunate Captain, must look at matter in proper light & rest blame on those who deserve it. In case of “<i>John Fielden</i>”, Captain Clarke would not have lost anchor chain nor broken windlass had entrance to ship channel been marked with buoys – appears not one buoy could be seen. Not known how long buoys have been missing, presume nearly 4 months – 3 laid down about 16th February, one almost immediately carried away, natural to suppose others also drifted shortly after – if so, should have been reported Cause of their being carried away: improperly laid down, or being anchored in shifting sands, appears if ship can ride safely at anchor with 60 fathoms</p>		[283] – [284] pages not numbered

SRNSW REF NO	CS REF NO	DATE RECD	TO	FROM	DATE OF DOCUMENT	CONTENTS	QSL REEL	PAGE
						of chain in open channel, some eligible spot might be found for laying down securely 2 or 3 buoys. Buoys have disappeared, "our place to urge on the attention of all parties concerned the absolute necessity of at once supplying the loss" – suggested by nautical gentlemen that light-ship be moored as guide to vessels entering the channel, with Pilot always on board, & life boats & efficient crew to afford assistance to vessels – possibly the most economical plan – doubtful of its being adopted, need to urge immediate replacing of anchor buoys, & erection of light-house or a temporary one. If buoys likely to take time coming from head quarters, others formed with logs of wood with swivels at one end, painted board at the other might be substituted in the interval – with no light-house, no buoys, sometimes no Pilot, no assistance to masters to prevent crews leaving vessels & above all the nuisance of those secret investigations, will act most prejudicially to shipping interests of Moreton Bay		
	53/06220				1853 07 22~	Note <u>Buoys in the Channel in the Harbour at Moreton Bay</u> On 13 th April last Port Master reported Buoy B carried away & unsuccessful measures adopted to recover it - authorised to instruct Harbour Master Brisbane to hire vessel to recover buoy & secure moorings - no further report on subject received, nor any report made of any of the other buoys being carried away Re purchase of vessel for use of Harbour Master: Port Master to provide estimate of cost of suitable vessel – propose to appoint additional Pilot should provision be made by Legislative Council to meet expense – proposed that the 2 Pilots (should an additional one be appointed) receive fixed salary of £200 per annum each & Notes re above	A2.30	286 - 288 [pages out of order - p 286 dup of l h side of sheet on p 288 – no p 285]

			J D L Ferguson	"C A F" Traylan Frederick Walker, Commandant, Native Police	1854 11 02 1854 10 31~ 1854 09 28	Mr Marshall Confirmation or repeal of this appointment may be placed at discretion of Acting Commandant – does not appear that under existing circumstances (the resignation of this officer not having been accepted) there is any vacancy to render it necessary At top: "Commandant Native Police" Letter requesting him to act as Sublieutenant of Native Police [see also Sub-Lieutenant] until Governor General's decision be known In case of Lieut Murray persisting in his resignation, he is to hand over No 1 Section to Sergeant Humphries [also spelt Humphrey], who is to be ordered to attend to mail & protection of Port Curtis country – also to be told that Commandant's orders are that Native Police are not to act as orderlies to anyone & in no way be mixed up with ordinary Constabulary		545
	54/09456	1854 10 31	Hon CS~	Gladstone, Port Curtis M C O'Connell, Government Resident	1854 09 09	At top: "Government Resident Port Curtis" Letter reporting on Sale of Lands in or near township of Gladstone (ref CS letter 22 nd June last) – not aware such a report was required [No 55/54] Para 2: Presently without information re progress of Survey "at this place", only map showing lands surveyed for sale is one furnished by Surveyor General Sydney, merely indicating allotments within Town of Gladstone - Mr McCabe officer in charge of Survey Party supplies information to him through office of Surveyor General Sydney, therefore only knows generally of lands surveyed for Town & Suburban allotments in & around Gladstone & some land laid out at Stowe on Calliope River – must consequently refer CS to Surveyor General Appears there are objections to the place of the Township of Gladstone as laid out – so much so that encloses separate memorandum Para 3: Unless survey of surrounding District included within circumference of 20 miles, as recommended in his letter 25 th August, proceeds more rapidly, serious inconvenience will arise on influx of population anxious to settle in neighbourhood of Gladstone – at present believes no land laid out in Sections of 640 acres or in blocks for pastoral occupation by lease or purchase or for agricultural occupation of small holdings as is usual in country adjacent to populous Towns There are plenty of Suburban allotments but no small farms of 50 or 100 acres & these latter required as paddocks for horses or for dairy purposes Para 4: As far as sale of lands in District is affected by progress of their survey, unable to give full information, refrained from any interference with Mr MacCabe until learns decision of His Excellency whether he is to have any control over Survey Department in this Residency Para 5: Better if he had power of directing generally points to which survey should progress & of preventing difficulty in movements of surveyor's party from want of equipment or means of transport – suggests matters more advantageous & expedient to decide upon here rather than in Sydney Para 6: Re sale of lands & public demand, opinion re holding sales in Sydney or Gladstone, mentions stream of population, difficulties obtaining labour, a bar to progress of any new place – suggests sale of land should be held in Sydney to include some allotments at Stowe & in 3 months after this sale another to be held in Gladstone – strongly recommends no Town allotments with water frontage be offered until his memorandum of this date on plan of Township of Gladstone has received due consideration &	A2.30	546 – 555

	54/10673	1854 12 11	Hon CS	Surveyor General's Office, Sydney T L Mitchell	1854 11 29	At top: "Surveyor General" "Immediate" Letter re questions from Dr Lang to be asked in Legislative Council "this day" (ref CS letter "of this date" No 54/983 marked "immediate") – noting questions & answers: 1: What extent of land is reserved in neighbourhood of towns in Darling Downs? [Ans - Margin]: 25 square miles at Warwick; 25 square miles at Drayton; 9 square miles at Leyburn; 9 square miles at Dalby, reserved, but not yet finally approved 2: Whether any objection to such lands being proclaimed under Regulations applicable to lands in Settled Districts, & if not, whether Government intends to proclaim them? [Ans - Margin]: None whatever 3: Whether desirable that such Reserves should be let to small occupiers in Sections of 640 acres each at annual rent of say £5? [Ans - Margin]: Most desirable, precise terms on which lands were leased before squatting commenced 4: Whether, in event of applications for purchase of such lands not being acceded to by Government from want of surveyors to mark them, Government has any objection to grant an "occupation license" with pre-emptive right over such land as should be in actual cultivation? [Ans - Margin]: No necessity for not acceding to application for purchases of such lands from want of surveyors to measure them, should be resident surveyor in each County, for which finds additional cost would be nothing equal to advantages secured for all classes of occupant Para 2: An "Occupation License" would require measurement also but with a pre-emptive right over such land as should be in actual cultivation – this, although a wise & just measure, would not be admissible under the Notice of 23 January 1854 [No 54/779] Also at top: "Respecting application of Dr Lang for information as to lands in Darling Downs District" & Notes in margin - To be registered – taken out of Council Box – "put by"	A2.30	802 – 805

NOTES

~ Have used this symbol throughout when I have "assumed" details which have not been provided – e.g. "Hon CS" has been omitted on document
See also "Dates"

CS REF NUMBERS

For **SORTING** purposes, I have entered CS Reference Numbers to five places 00001 - 10000

For **FINDING** purposes I have inserted 0s in the Contents where CS ref Numbers have been cited

DATES

Format used throughout is **YEAR MONTH DAY** – one space between

~ Used to indicate dates which are incomplete on document, usually in Notes e.g. 31 Mar - assumption made as to year

PAGE NUMBERS

For **SORTING** purposes I have entered all page numbers to 3 places
